Project Title: Act 20, Act 22, and Statehood: What is the Answer to Puerto Rico's problems?

I'd like to build a website divided into sections (or pages) that details Act 20 and Act 22 and their effects on the locals of Puerto Rico.

- History: Some back story on Puerto Rico and how it came to be under the possession of the United States
- Introduction: Introduction to what exactly act 22 and act 20 are and how it has affected the island.
- Details: Detailing what each Act entails, what have been the main repercussions, what have been the main benefits?
- Social activism: How the people on the island have reacted?
- Next Steps: what are the next steps? What will happen next?
- Sources: a page dedicated to where I got my information from.
